

## APPLICATIONS

**Eni i-Sigma pro gamma 40** is a lubricant for naturally aspirated and supercharged diesel engines operating under severe service conditions or subject to excessive deposits and/or wear due to the design characteristics or the fuel used.

## CUSTOMER ADVANTAGES

- Its antiwear properties ensure long life of moving parts and reduce the need for engine overhauls.
- **Eni i-Sigma pro gamma 40** resists to high-temperature oxidation and it has good detergency properties, thereby keeping engines clean from deposits.
- It protects against corrosion due to humidity and the acids formed as the fuel burns.
