

# Eni Brake Fluid DOT 4 Tec

Eni Brake Fluid DOT 4 Tec is a high performance hydraulic brake fluid for use in automotive disc or drum brakes, ABS and clutch systems. The product provides good performance levels for use in passenger cars, motorcycles and commercial vehicles, both for current and previous model generation.

## CHARACTERISTICS (typical figures)

Property	Unit	Eni Brake Fluid DOT 4 Tec
Appearance	-	Clear & yellowish
Specific gravity at 20°C	kg/l	1.06
Viscosity at 100°C	mm <sup>2</sup> /s	1.85
PH	-	10.7
Dry boiling point	°C	260
Wet boiling point	°C	165

## PROPERTIES AND PERFORMANCE

- Eni Brake Fluid DOT 4 Tec has a high boiling point that guarantee consistent and safe brake performance under severe stress condition of the braking system.
- It is compatible with rubber components, it preserves the tightness of the gaskets and it reduces leakage and loss of fluid to a minimum.
- It provides an excellent corrosion protection and it guarantees the extended life and reliability of brake system components.
- Due to the high oxidation resistance, Eni Brake Fluid DOT 4 Tec keeps the chemical/physical characteristics of the fluid unchanged for a long time.
- The product additivation technology has been designed to contain the adverse effects of thermo-oxidative phenomena.

## Specifications and approvals

- SAE J 1704
- FMVSS 116, DOT 4
- ISO 4925/05 (CLASS 04)

## Warnings

Store the brake fluid only in the original container, carefully closed, in order to protect the fluid from moisture.
